

FARM PLAN

You are encouraged to explore our gardens and farm, have walks and picnics.

We have two requests:

1. Please respect the private spaces around individual accommodation
2. If you go into any of the fields with animals, please shut the gates with the animals on the inside. .

GARDEN PLAN

The outdoor space directly around your accommodation is available for your personal use for the duration of your stay. You are encouraged to explore the rest of our gardens and grounds, have walks and picnics.

We have two requests:

1. Please respect the private spaces around individual accommodation
2. If you go into any of the fields with animals, please shut the gates with the animals on the inside.

The dogs are friendly. Koko (little one) and Moss love it if you go into their pen but will be excited and may jump up at you. Moss will chase balls and sticks for as long as you are prepared to throw them.

You can go into the orchard where there are geese, chickens and tortoises. The male goose will come and hiss at you and may try to peck. He is all bluster and is a coward! Advance towards him and he will back off. He may try to sneak around to the back of you but will retreat if you step towards him. There is corn in the bins at the gate to the orchard, the chickens will be your best friend if you throw a bit for them.

Any poo around the farm is not from our dogs but will be from badgers and foxes who visit every night. We clear it up but apologies if we miss some.
